00:32:06 Arin Fugate: Olfactory Training - <https://www.anosmie.org/@medias/docs/PRO/P.R.O-V1.1E.pdf>

00:36:38 Karen Mortensen: The olfactory training sounds wonderful! My husband could use this. His "smeller" doesn't work very well. It's not Covid, just his norm.

00:36:45 julene: Does is help when things smell off.. things stink

00:38:20 Arin Fugate: I would think so Julene

00:40:05 Marilyn Buckley: I have been using full strength directly from the bottle because I cannot smell/taste anything. So I have been doing this for almost 2 weeks and still not smelling 😞 Should I have diluted???

00:43:01 Sandra Freeman: I would say that using the suggested peppermint could be great. It is known to help with nerve regeneration.

00:44:44 Marilyn Buckley: I had seen one olfactory training protocol where you use these 4 oils as well as the actual lemon, a rose, cloves, etc. for visualization but this does make sense to not know ahead of time what you are smelling because there is an expectation

00:47:48 Marilyn Buckley: @Sandra Freeman - would you use the Peppermint to smell or taste? Also I think I may have missed about using the Helichrysum & Copaiba

00:47:48 Dianne DelReyes: SOC=Symphony of the Cells

00:48:27 Karen Mortensen: Does anyone need a link to the SOC?

00:49:34 Marilyn Buckley: I will begin the SOC tonight!!! Should I rotate Infectious and Neurological ?

00:49:46 julene: YES!! I used the SOC Neuro and put in in a roller bottle. It helped improved my smell and other things!
